

Does your cybersecurity policy cover unsolicited messages?

They may contain unprotected credit card/personal data

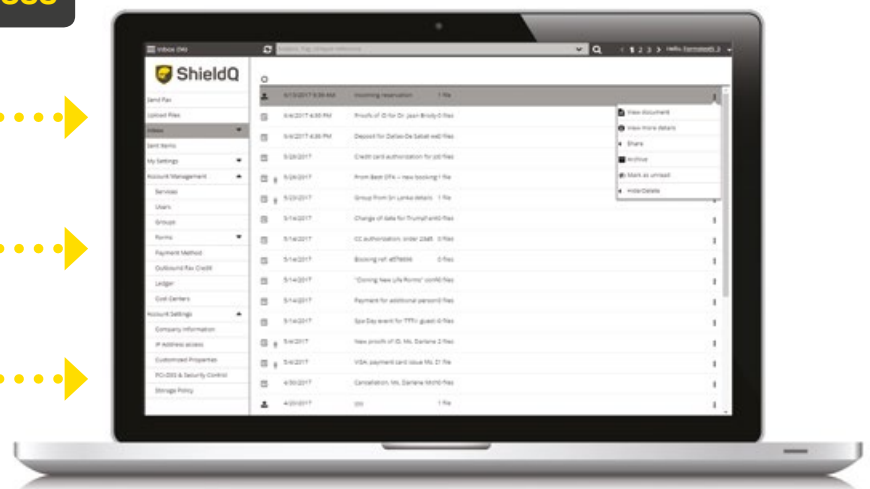

It takes only one credit card number accepted from an unsecured email or other source to cause a data breach, and to ruin your reputation.

With ShieldQ, you'll always be protected. It's the only, all-in-one, ISO 27001-certified, PCI DSS/HIPAA-compliant document service that lets you receive and store sensitive data from multiple channels, into a secure inbox.

ShieldQ protects you and your customers:

- ✓ PCI DSS Level 1-accredited/HIPAA compliant data acceptance and storage service
- ✓ Easy to implement and use for businesses of all sizes
- ✓ Multiple document formats

Secure your data, secure your business

ShieldQ: what's in it for you?

- ✓ **Become PCI DSS-accredited/HIPAA compliant in an instant**, affordably
- ✓ **Make sure customer data is always secure** from data breaches
- ✓ **Simplify management**: handle and share all documents – fax / email / upload – from one queue
- ✓ **Reduce risk of lost documents**: store them for as long as you need, retrieve instantly
- ✓ **Sign up in seconds**: no IT, no software needed
- ✓ **Secure web forms**: let customers submit all their info, with attachments from your site, into ShieldQ
- ✓ **Free storage**: for the first 12 months. Store for longer, at low rates
- ✓ **Infinitely scalable**: from one company, to worldwide chains

...and reassurance that you have the only PCI DSS level 1-accredited, HIPAA-compliant multi-channel document management and storage service that's accredited by a Qualified Security Assessor.

Key features of ShieldQ

PCI DSS Level 1-accredited, ISO 27001-certified, HIPAA-compliant
